

# ROTARY CLUB OF BELIZE

## PROJECT OUTLINE

### BATHROOM RETROFITS

**Area: Water & Sanitation**

**Beneficiaries: 1 family per unit**

#### PROJECT OUTLINE

This project's goal is to provide bathrooms (retrofitted) onto existing low income homes being built by the Hand in Hand Ministries. The bathrooms come equipped with a basic shower, toilet, and sink along with a septic system and running water/

Over the last few years, the Rotary Club of Belize has built basic 20X20 houses as part of a program with Hand in Hand Ministries from the USA, and as such noticed the need to provide these houses plus others built by the program with proper sanitation facilities. On the homes, construction supervision, family selection and follow up is provided by Hand in Hand, with the labor and funding for materials etc provided by Rotary members. The recipient family is also part of the construction process through in kind labor.

The residents are required to sign a covenant that involves various restrictions such as keeping the area tidy, occupancy etc. and must have title to the property the house is built on.

**This project can be selected on a per unit basis or in groups of 5 or 10 units (bathrooms).**

The project shall be overseen by a Committee to be set up by the Rotary Club of Belize should it become fully funded.

**Club: US\$250**

**4250 DDF: \$0**

**Needed: US\$1420**

**TOTAL: US\$1670**

**Contact Person: Anthony Hunt**

**Implementation Time : 1 month**

**Email: yellowtail@btl.net**

**Location: Belize City**
