Brief Description of the Project:

The object is to upgrade beautify the female section of the prison facility, which has been neglected, as females only account for 5 percent of the inmate population. The Kolbe Foundation aspires to create a humane environment for all its inmates. Studies have shown that atmosphere affects conduct. In the presence of a calming environment, the occupants are more likely to exhibit better behaviour.

Beneficiaries:

Female inmates at the Belize Prison

Local Rotarian Participation: The Belize City Rotarians will provide "hands on" work to beautify this section.

Location : Belize Central Prison, Belize District
