

ROTARY CLUB OF BELIZE

PROJECT OUTLINE

Project Name: **Kolbe: Agriculture and Self Sustainability**

Area:

- Literacy
- Disease Prevention and Treatment
- Water and Sanitation
- Community Development
- Peace and Conflict Prevention and Resolution
- Maternal and Child Health

Brief Description of the Project:

This project is at the Belize prison, and emphasizes the development of an agro-ecosystem where the fundamental goal is to achieve sustainability by supplying the Prison with essential food and at the same time rehabilitating inmates through agricultural education programs that operate on an environmentally friendly basis. To achieve these goals, the poultry and farm units need to be upgraded for self sufficiency and sustainability. This project calls for the purchasing of an irrigation system, and upgrading of the existing poultry quarters.

Beneficiaries:

Inmates of the Belize Central Prison

Local Rotarian Participation:

The Rotarians who now serve on the Belize Central prison board will oversee the purchase of the equipment, and the refurbishing of the existing structure.

Location :

Belize Central Prison, Belize District

Total Cost:

\$30,000.00

Club:

\$100.00

4250 DDF:

\$1000.00 US

Needed:

\$27,050.00 US
