Brief Description of the Project:

The aim of the project is to upgrade the basic and old medical center at the prison, which presently is only a consultation room, to include short day care, hospitalization for uncomplicated cases, with appropriate medical equipment, to properly care for 1500 inmates. It will then allow for the prompt diagnosis and treatment of common and uncomplicated medical conditions at the prison.

Beneficiaries:

1500 inmates at Kolbe, as well as the neighboring village residents, who periodically need urgent medical care.

Local Rotarian Participation: Rotarians who currently serve on the Kolbe board will purchase the equipment. Members of the Rotary Club of Belize will do "hands on" work in the painting etc. of the medical center.
