Brief Description of the Project:

The objective of this proposal is to develop the Vocational Program to cater to the inmates. The program will include seven core trades: Mechanic, Electrical, Plumbing, Woodwork, Welding, Agriculture and Horticulture. This program will address the vital aspects of the inmates rehabilitation and re integration and will allow inmates to "using time" rather than "doing time". Most offenders lack trade skills and training them will assist in the successful re integration and increase the chance of obtaining gainful employment.

Beneficiaries:

Inmates at Belize Central Prison

Local Rotarian Participation: Rotarians serving on the Prison Board will be responsible for the purchasing the equipment, and ensuring proper use of the equipment.
